Omaha, Nebraska 68102-4978

DR 1125-2-45

MROOP-P

Regulation
No. 1125-2-45

15 June 1985

Plant
FLOATING PLANT OILY BILGE WATER,
OIL AND REFUSE DISPOSAL

1. Purpose. This directive is to give instructions for the disposal of refuse and oily water pumped from the bilges of Corps of Engineers floating plant, and to keep the Corps of Engineers free of criticism on water pollution.

2. Reference. U. S. Code, Title 33, Sections 407 and 1151.

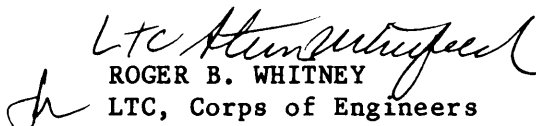

3. Scope. This regulation is applicable to all Corps of Engineers installations and activities operating floating plant.

4. General.

a. Under the provisions of above reference, it is unlawful to dispose of any refuse or oil into the navigable waters of the United States.

b. Except in an emergency, the bilges of floating plant containing oil or oily water will be pumped out periodically into shore based containers and be disposed of in land-fill pits or some other suitable location designated as a spoils area where the waste will not contaminate navigable waters.
